Lischana Trekking

Lischana - Trekking in Lower Engadin
Secluded Trails in the Lower Engadin Dolomites

Surrounded by rugged peaks, the friendly Lischana cabin dominates the Engadin valley. The scenery from the cabin is one of the main attractions of this four-day tour through the secluded Lower Engadin dolomites.

The tour leads you through a variety of fascinating landscapes into the Swiss National Park, to a high plateau with coloured rocks and alpine lakes and to scenic passes and summits. Alp & Fjell recommends the ascension of the Piz Lischana (3105 m) to experienced hikers.
